### EDUCATION

#### Full-Stack Web Development

Career Accelerator Program

#### B.Com

Tuljaram Chaturchand College of Arts, Science & Commerce, Baramati

### INTERESTS

- Watching Movies
- UI/UX Design
- Learning New Technologies

### PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with proficiency in the MERN stack (MongoDB, Express.js, React.js, Node.js) and expertise in designing scalable web applications. Mastery in Generative AI, JavaScript, and effective collaboration. Quick at learning new technologies to enhance development processes efficiently.

### PROJECTS

#### 1. TATA 1MG Website Clone | |

JavaScript | React | Git | Node.js | Express.js | RESTful APIs | CSS3 | HTML5 | Responsive Web Design | MongoDB

- Developed a fully responsive healthcare platform clone using React.js, Context API, and Tailwind CSS to provide a modern user experience.
- Implemented secure user authentication with JWT and built RESTful backend APIs using Node.js, Express.js, and MongoDB Atlas for CRUD operations.
- Integrated search functionality to enhance user interaction and support secure authentication/authorization for users.

#### 2. Food App Redux-Toolkit and Backend | |

JavaScript | React | Redux | Git | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3 |

Responsive Web Design | Tailwind CSS | Shadcn

- Created a dynamic food ordering application with React, Context API, and Redux Toolkit, supporting features like search, sort, and cart functionality.
- Built robust backend APIs using Node.js, Express.js, and MongoDB Atlas to manage food items and user orders securely.
- Implemented JWT-based user authentication and authorization for a secure user experience.
